

# Matthew Vogelsang

Full Stack Developer

Hollywood, USA, 33021, (954) 668-8674, vogelsangmatt@gmail.com

## Professional summary

---

Full Stack Developer with a solid foundation in JavaScript, Node.js, and PostgreSQL, honed through rigorous projects at the University of Miami. Demonstrates strong problem-solving abilities and meticulous attention to detail from a background in maintaining complex systems. Committed to continuous learning and leveraging skills to build robust, efficient applications in collaborative environments.

## Employment history

---

### Software Engineer, Jul 2025 - Present

*Empowberto, Toronto, ON*

#### Software Engineer Intern

- Selected as one of the first web developers to join the organization, playing a key role in shaping the digital direction of the company.
- Led the complete rebranding of the company's website, including redesigning UI/UX, restructuring content, and improving performance.
- Collaborated with leadership and stakeholders to align the new website with the brand's mission, vision, and goals.
- Contributed to front-end development using HTML, CSS, JavaScript, and modern frameworks/tools.
- Helped boost the organization's online presence, resulting in increased traffic, engagement, and visibility—supporting the company's recent growth and success.
- Revamped website architecture, enhancing loading speeds and user experience, leading to noticeable increases in visitor retention.

### Junior Full Stack Developer, Jan 2025 - Jul 2025

*Paper Boat CRM, Fort Lauderdale, FL*

#### Junior Software Engineer

- Developed responsive web applications using React with Vite and Express.js integrated with Supabase, improving user engagement and performance.
- Collaborated with designers and engineers to enhance UX, resulting in measurable increases in user interaction metrics.
- Assisted with debugging, testing, and deployment processes while gaining full-stack development experience in a small five-person agile team.

### Web Developer, Jan 2024 - Present

*Self Employed, Hollywood, FL*

- Develop and maintain web apps ensuring cross-browser compatibility and optimal performance.
- Implement unit tests to enhance reliability and reduce user disruptions.
- Streamline updates by resolving deployment issues, improving efficiency.
- Collaborate in diverse teams to achieve complex project goals.
- Maintain robust applications with Express.js and Sequelize ORM.

### Bootcamp Student, Aug 2024 - Jan 2025

*University Miami, Coral Gables, FL*

- Completed a rigorous, full-time coding bootcamp focused on JavaScript, HTML, CSS, React, Node.js, Express, SQL, and MongoDB
- Collaborated on group projects, developed real-world web applications, and practiced Agile development methodologies
- Gained strong teamwork and communication skills by working closely with peers and instructors
- Learned how to adapt quickly to new technologies and problem-solve under pressure
- Continued building on knowledge post-graduation by freelancing, studying independently on Codecademy, and helping clients with web development projects
- Frequently revisit past assessments and notes to reinforce concepts and sharpen skills

## Education

---

### Full Stack Bootcamp

*University of Miami, Miami, FL*

## Skills

---

Python, JavaScript, React, Wordpress, Bootstrap, Node.js, Express, MySQL, MongoDB, PostgreSQL, APIs, Sequelize, Git.
